- b) The second letter can be a final warning following either no response being received or the action plan not being followed. This notice can outline the improvements that must be seen for the plot holder to keep the plot. You can warn them that the improvements must be shown within 14 days or a termination notice may be issued.
- c) The third and final letter, a month notice to quit can be issued if the improvements have still not been made to the plot.
