

Uttoxeter Joining Up The Community Project

The prevalence of social isolation, loneliness and lower-level mental health issues was on the rise before the Pandemic. There is now evidence that the lockdown has exacerbated these issues.

The pandemic has shown us all that there is a huge amount of Good Will in Staffordshire, which a strong and local Community project could build upon. It was this effort during lockdown that enabled our public services and primary care to focus on those with the greatest needs.

This has led to starting the Joining Up the Community Project in Uttoxeter. This will aim to improve the health and wellbeing of the local residents by improving and increasing opportunities for people to engage in.

Uttoxeter Forum on the Tuesday 22nd March 2022 at The Uttoxeter Heath Community Centre

At this meeting we will:

- Introduce the project and the people
- Explain the reasoning behind the project
- Explain how the project will be delivered
 - Explain the goals for the project
 - Introduce the Joy App

Arrive 5:45pm - Start 6:00pm - Finish 7:15pm
